

Galaxy Tab A10

Latest Field Force Manager App Version: 18.15.1

Supported Device OS: 8.0 - Oreo

Manufacturer	Samsung
Model	Galaxy Tab A(10")
Platform	Android

Device Notes

1. Please install the Field Force Manager mobile app from Google Play

Pre-Installation: Enable Location Tracking on the Phone

1. Highlight and tap/click on **"Settings"** from the main menu.
2. Scroll down to **Personal** section and find **Location** and tap/click on it.
3. Turn on the switch and Accept/Agree any warning that are displayed.
4. Location tracking is now enabled on your Android Device.

Install Field Force Manager from Google Play Store

1. On your mobile, open **Google Play**.
2. Search for **"Field Force Manager"** in the search box. Alternatively, you can copy and send this link to mobile: https://play.google.com/store/apps/details?id=com.xora.ffm&hl=en_IN

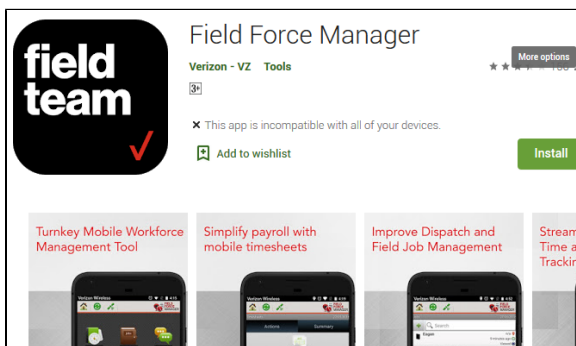

OR, if you are on mobile, then tap this icon.

Note:

Include quotes for better search results. For Example: "Field Force Manager"

3. Tap on the **Install** button to install the **Field Force Manager** application on your device.

4. Wait until the **Field Force Manager** application is installed.
5. Tap on **Open** to launch the **Field Force Manager**

Activate and Login to Field Force Manager

1. Tap/click on the arrow button (to the left of the word Phone) on the Home Screen of your Android phone.
2. From All Programs, scroll down and tap/click on FFM icon.
3. Using the Device phone number, FFM will automatically activate and log you into the application. You will see the EULA (End User License Agreement) page on your phone screen.
4. You will be shown the FFM **EULA**. Tap/click **I Agree** to continue.
5. Next you will be shown the **Warning** screen. Tap/click **I Agree** to continue.

6. A pop up window appears displaying the list of the New Updates (if any), such as New Forms, New Jobs, etc. Tap/click **OK** to dismiss the screen and start using the Field Force Manager application.
